

# From tiny acorns grow beautiful big trees.....

Acorns are a symbol of hope, of great things growing from little ideas, and of new beginnings, which we hope 2021 will bring to people of all ages across the world.

We invite you to create your own acorn and plant some hope across the generations for the new year!

**My Acorn of  
Hope for  
2021 is...**

Write your hopes for 2021 on the acorn, cut out and decorate with lots of colour! You could send, exchange or share them with friends, grandparents or neighbours or hang in windows, gardens, classrooms, share with people of different age groups locally to where you live or even organise an outdoor display of acorns in your neighbourhood!
